

## What is Chayenu?

Chayenu is a weekly Torah publication (in Hebrew & English) focused on the Daily Study Cycles of Chumash, Rambam, Tanya and more. Chayenu also features fresh content from a variety of relevant and inspirational Torah sources including classical commentaries and current original writings.

Our mission is to make Torah learning accessible to everyone by **taking the preparation work out of Torah Study** and through leveraging the still very strong print media market. The content, printed in a pocket size, soft cover, newsprint type magazine, is summarized and elucidated in a clear and easy to understand format. Chayenu preserves the original text of some of the more classical material translating it all into English so both the novice and layman can glean a meaningful message.

Founded in 2009, Chayenu now distributes close to 3000 copies in over 10 countries worldwide—weekly.

You can choose to receive Chayenu in the mail directly to your home or office or via a local group order/distribution point.
